Meeting Notes

End of Semester Eval

Notes

- Everybody likes how the team is doing overall.
- analysis paralysis?
    - we thought we gave a good amount of analysis before working. Maybe if we went into the project with the understanding of the reserach project and the self-guided.
    - malachowsky

Feedback

- other team presentation feedback
    - we did good on implementation tradeoffs
    - we should confidently decide the direction. We have great ideas!
    - talk about the evolution of the design
    - talk more about risk
    -

ToDo

- OpenSource liscenceing
    - the openest we can
    - MIT
    - GNU
